MASTER ELECTROPLATING CO.

"We Lead By Excellence"

VISION

"To be one of the top electroplating chemical suppliers in the world"

MISSION

"To source fundamental, top-quality and diverse electroplating chemical products to a huge client base in Pakistan and abroad. We adopt an innovative approach by extensively investing in R&D, having an ISO 9001:2000 certification, and employing a world-class team to magnify our reach."

About Us

Established in 1982, Master Electroplating Company is a full-line manufacturer and supplier of premium quality electroplating chemicals and additives in Pakistan. Our vast industry experience, competitiveness and all-encompassing on-site technical support set us apart from others.

We have been prolifically serving automobile, hardware, sanitary, jewellery, automotive, construction, machine manufacturing, and electronics industry clients. We continuously invest in Research and Development (R&D) to develop a comprehensive product range and enrich our customer experiences.

Driven by a dedicated, tech-savvy and qualified team, we enjoy world-leading expertise, ISO 9001-2000 certification and an international reputation. As a market leader, we hope to develop a global reach through innovation, convenience and excellence.

OUR VALUES

Integrity

We operate with integrity to develop long-term relations with our clients.

Trust

We aim to win our customers' trust by providing a flawless experience.

Responsibility

Quality is our priority, and we take complete responsibility for our supplies.

OUR VALUES

Diversity

We invest in R&D to offer a diverse and comprehensive product range to our valued clients.

Passion

We are passionate to magnify our reach and becoming the top electroplating chemical supplier around the globe.

Promise

We promise to surpass our customer expectations by offering quality, competitiveness and ease.
